

C/21/09/07/2018

Dear Parent,

In an increasingly changing social environment where unlike earlier, joint families are replaced by nuclear families and where grandparents don't have the balancing influence on kids at home, it is imperative for parents to devote quality time to their children. However, due to demanding work timings, for working parents, it does not happen. Subsequently we are now heading to a time when our children are not able to manage their emotions. Here is a solution to this.

Principal
